  • Daimler, Siemens …
Provide ultra-fast charging for EVs of today and tomorrow
Provide ultra-fast charging for EVs of today and tomorrow
Access to >5MW capacity may be limited

+ Planners must overlay
  • High density customer location
  • Available real estate
  • VTOL accessible real estate
  • Sufficient electrical capacity

+ Is there a first mover advantage to acquiring suitable sites?

San Francisco (from PG&E)
Let’s not repeat mistakes of the past.....
Thank You
