Golden hour heli
Golden hour aEro 3
aEro 3 is an efficient aircraft, but the biggest cost savings come from its high cruise speed.

We calculate at today’s aviation operational costs with 31% reserves (based on 15 years CFO experience in aviation).

The price per hour is 1’400 CHF
The price per km is 4 CHF
(at cruise speed of 350 km/h)
1.1x cheaper
4x faster

3x cheaper
1.6x faster
Heliports in the New York region
Example: aEro 3 will be the fastest mode of transport to MIT for a large region.
