UNITED STATES POSTAL SERVICE - NEXT GENERATION DELIVERY VEHICLE

Workhorse and exclusive partner VT Hackney have been awarded a six vehicle prototype contract to build electric, range extended low-floor chassis vehicles as part of the USPS Next Generation Delivery Vehicle replacement program. The postal service goal of the $6B+ NGDV replacement program is to obtain vehicles that will help provide reliable and efficient delivery service for customers and honor the postal service’s commitment to reducing the environmental impact of their 180,000 vehicle fleet.

NGDV prototype vehicles on-route under going durability and carrier testing having been delivered in September 2017
W-15 WORK TRUCK

Workhorse to build the safest, most efficient, most capable and most cost effective work truck
