Charles “Chuck” Aaron
CallSign “Malibu”
President / Founder Fxll Helicopter

Mitigate Risks, A summary of a passion; helicopters, industry
and people... a career doing the impossible”

Charles 'Chuck' Aaron first and only pilot licensed by the FAA to perform aerobatics in a helicopter in the United States. Featured in the opening sequence of the James Bond film Spectre. Chuck spent the last ten years with Red Bull and made his last performance at the 2015 Red Bull Air Race World Championship in Las Vegas. After ten years of performing Helicopter Aerobatics in over 250 airshows all across the country, and over 20,000 flight hours his name has become synonymous with performing the unexpected. But behind the exciting routines goes a lot of methodical planning by many people, a lot of practice and experience. Chuck has made a career of pushing the limits only after understanding and gaining full control of them in a controlled environment first. Never quit! Never give up! Fight it until the end!
