

Be a sponsor of the Vertical Flight Society's annual Design-Build-Vertical Flight Student Competition!

This electric vertical take-off and landing (eVTOL) competition seeks to encourage interest in unmanned aircraft technology, and small air vehicle design and fabrication. The competition will help students develop hands-on skills and familiarization with eVTOL technology and prepare the next generation of engineers and leaders to advance this exciting field.

2022 VFS Design-Build-Vertical Flight (DBVF) Competition Sponsorship Opportunities

The 2022 VFS Design-Build-Vertical Flight (DBVF) competition sponsors will be at the forefront of supporting UAS, eVTOL, STEM and the air mobility industry. Three sponsorship levels (Gold, Silver and Bronze) are available to promote sponsors' brands to event participants and supporters throughout the competition process. The U.S. Army Combat Capabilities Development Command (CCDC) Army Research Laboratory (ARL) is the host for the event.

Sponsorship Level	GOLD	SILVER	BRONZE
Number Available	3	3	10
Investment Level	\$5,000	\$2,500	\$1,500
Attendees for flying event (outdoor)	1	0	0
Keynote speaking opportunity	•		
Logos included on the banner at the fly-off event. Logo size will be dependent on sponsorship level.	•	•	•
Recognition on VFS DBVF website and all promotional materials.	•	•	•
All sponsors' logos published together on a single full-page recognition in Vertiflite, 1 before the event and one after the event. Logo size will be dependent on sponsorship level.	•	•	•
Opportunity to add *sponsor-provided* swag to attendee event bags.	•	•	
Opportunity for an exhibit display at the event (sponsor to provide materials & staffing if desired).	•		

For more information about sponsorship opportunities, please contact: FLY@vtol.org

Notes:

- In the event that COVID-19 restrictions preclude an in-person event, VFS will endeavor to provide suitable virtual benefits wherever possible.
- In the event that weather precludes an outdoor flyoff and the alternate date is also unsuitable, the indoor facility may restrict the ability to provide exhibit space or other intended benefits.
