**POC:** Mihir Mistry (mihir.p.mistry@boeing.com)

About the speakers:

**Damon Henry - CEO**

Damon has been involved in the RC/drone industry for 15 years. After graduating from MIT, he went on to graduate from GE’s Operations Management Leadership Program (OMLP) where he ran several military manufacturing lines for aircraft including V-22 and P-3. While in these positions, Damon received his Green Belt in Lean Six Sigma and manufacturing resource planning. His most recent endeavors involved structural and payload design for advanced rotorcraft and small UAVs at The Boeing Company.

**Adam Mohamed - CTO**

Since graduating from MIT, Adam has been a design engineer at The Boeing Company. Working several developmental and proprietary programs and gaining an extensive background in sensor fusion technologies, he became an enterprise-wide subject matter expert in unmanned aerial systems. He is experienced in rapid prototyping and using additive manufacturing tech, including developing an advanced 3-D printed UAV.
